GrapeCity Assignment

Name: Vanshika Bansal, Shiv Nadar University

Test Cases for saving images(s) on the local system:

TC1: Check if there is no image selected, then do not display the 'Save Image(s)' button.

TC2: Check if the text displayed on button is readable and appropriate, should not be confused with the other buttons (like pdfExport).

TC3: As soon as an image is selected, the button should automatically appear.

TC4: The image tile is to be highlighted when right-clicked to make it identifiable for the user.

TC5: When the 'Save Image(s); button is clicked, the Save File dialog box appears.

TC6: Check if the user is able to browse different folders in the Save File dialog box.

TC7: Check if the selected images are to be saved only to the selected folder and nowhere else.

TC8: Check if the number of images selected = number of images saved on the system.

TC9: All images should have a unique and differentiable id.

TC10: The content on the saved image should exactly match the displayed.
